DETAILED ACTION

This action is in response to After Final Amendment filed February 6, 2006. All applicant's arguments have been considered.

Response to Arguments

Applicant's arguments, see Amendment, filed February 6, 2006, with respect to claim 32 have been fully considered and are persuasive. The rejection of claim 32 has been withdrawn.

Applicant argues that the fifth mirror does not receive light that is convergent. The prior art shows that light reflected at the face of the fourth mirror is converging; however the light passes through a focal point and begins to diverge prior to contacting the fifth mirror surface.

Allowable Subject Matter

Claims 32-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 32, the prior art fails to teach or suggest a catoptric projection system for projecting a pattern comprising six mirrors that sequentially reflect light the first mirror being convex or planar, the fifth mirror receiving convergent rays and the six mirrors arranged in order a near distance along the optical axis from the object surface as follows: the second mirror, the

first mirror, the fourth mirror, the sixth mirror, the third mirror and the fifth mirror and an intermediate image formed between the fourth and fifth mirrors.

The remaining claims are dependent from claim 32 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
